DOCKET NO. 20-0304-0701 (FEE RULE)

NOTICE OF RULEMAKING - ADOPTION OF PENDING FEE RULE

EFFECTIVE DATE: This rule has been adopted by the agency and is now pending review by the 2008 Idaho State Legislature for final approval. Pursuant to Section 67-5224(5)(c), Idaho Code, this pending rule will not become final and effective until it has been approved, amended, or modified by concurrent resolution of the legislature because of the fee being imposed or increased through this rulemaking. The rule becomes final and effective upon adoption of the concurrent resolution or upon the date specified in the concurrent resolution.

AUTHORITY: In compliance with Idaho Code Section 67-5224 and IDAPA 20.01.01, Rules of Practice and Procedure Before the State Board of Land Commissioners ("Board"), Sections 830 through 835, notice is hereby given that this agency has adopted a pending rule. This action is authorized pursuant to Section 58-104(6), Idaho Code.

DESCRIPTIVE SUMMARY: The following is a concise explanatory statement of the reasons for adopting the pending rule and a statement of any change between the text of the proposed rule and the text of the pending rule with an explanation of the reasons for the change:

The new rules are intended to implement changes in Section 58-1307, Idaho Code that increased application fees. The increase in fees is intended to cover the department's program costs. The rules also eliminate conflicts with Idaho Code Sections 58-1301, et seq. and the rules are reorganized to make them more understandable. These changes will also reduce the amount of time and money the department spends on the program. Encroachment standards are centralized in the new rules and expanded to address the issues that are currently facing the department. These issues include floathome sanitation, demolition, and allowing some amount of private moorage at commercial marinas. These rules are being promulgated in conjunction with changes to IDAPA 20.03.17, Rules Governing Leases on State-Owned Submerged Lands and Formerly Submerged Lands.

Some changes were made to the pending rules after the close of comments on October 24, 2007. These changes are largely in response to comments received from the public. The definition of "commercial navigational encroachment" was modified to make it more general. A new definition of "commercial marina" was added. The term "commercial navigational encroachment" was then placed in the standards for encroachment lengths and in the application section. The standards for community docks and commercial marinas were modified and reorganized to clarify the distinctions between public and private moorage and remove some potential conflicts between paragraphs. Locked gates will be allowed on public moorage to address security concerns. Commercial marinas that convert to community docks must meet all the community dock standards. Parking requirements were modified to apply to all moorage at commercial marinas. Pursuant to Section 67-5228, Idaho Code, typographical, transcriptional, and/or clerical corrections have also been made to the rule and are being published with this Notice of Rulemaking as part of the pending

rule.

The text of the pending rule has been amended in accordance with Section 67-5227, Idaho Code. Only those sections that have changes that differ from the proposed text are printed in this bulletin. FEE SUMMARY: The following is a specific description of the fee or charge imposed or increased. The fee or charge is being imposed pursuant to Section 58-1307, Idaho Code:

Encroachment application fees for: single and two-family docks within the line of navigability will be increased to \$250; shoreline protection will be increased to \$250; single and two-family docks outside the line of navigability will be increased to \$1,000; community docks and commercial navigational encroachments will be increased to \$2,000; nonnavigational encroachments will be increased to \$1,000. For commercial navigational encroachments, if the actual cost of processing the permit exceeds \$2,000, then the department may charge an additional amount subject to Section 58-1307, Idaho Code. These fee amounts will also be the maximum fees for temporary permits. Assignment fees are set at \$150.

FISCAL IMPACT: The following is a specific description, if applicable, of any negative fiscal impact on the state general fund greater than ten thousand dollars (\$10,000) during the fiscal year: N/A

to 20.03.17, will be held on:

October 10th, 2007 -- 8 am to 5 pm
3780 Industrial Avenue South
Coeur d'Alene, Idaho

The purpose of the hearing is to gather public comments on the proposed rules. The hearing site(s) will be accessible to persons with disabilities. Requests for accommodation must be made not later than five (5) days prior to the hearing, to the agency address below.

DESCRIPTIVE SUMMARY: The following is a nontechnical explanation of the substance and purpose of the proposed rulemaking:

The Idaho Department of Lands (IDL) is initiating this rulemaking partly in response to changes in Title 58, Chapter 13, Idaho Code made during the 2006 legislative session. These changes allowed higher permit fees to be collected. This rulemaking is also needed to clear up numerous conflicts between the rules and Title 58, Chapter 13, Idaho Code and to clarify several unclear sections that hinder effective program administration. The issues to be addressed by this rulemaking include, but are not limited to, increasing the permit fees, clarifying the definitions of commercial and community marinas, allowing commercial marinas to have up to 50% private moorage under certain conditions, changing some hearing processes, specifying floathome standards, authorizing temporary permits, and simplifying enforcement actions. This rulemaking will be conducted in conjunction with the IDAPA 20.03.17 rulemaking.

FEE SUMMARY: The following is a specific description of the application fees:

Single and two-family docks within the line of navigability are \$250; single and two-family docks outside the line of navigability are \$1,000; community and commercial docks are \$2,000; nonnavigational encroachments are \$1,000. For commercial docks, if the actual cost of processing the permit exceeds \$2,000, then the department may charge an additional amount subject to Title 58, Chapter 13, Idaho Code, Section 58-1307. These fee amounts will also be the maximum fees for temporary permits. Assignment fees are set at \$150.

FISCAL IMPACT: This is a general fund program. The department anticipates a positive fiscal impact of approximately \$156,000 on the state general fund due to increased application and assignment fees.

NEGOTIATED RULEMAKING: Pursuant to IDAPA 04.11.01.811, negotiated rulemaking was conducted. The Notice of Negotiated Rulemaking was published in the June 6, 2007 Idaho Administrative Bulletin, Vol. 07-6 page 77. Negotiations were conducted over six (6) meetings in June and July, 2007.

i. Commercial marinas with private moorage must form a condominium association, co-op, or other entity that owns and manages the marina, littoral rights, upland property sufficient to maintain and operate a marina, and private submerged land, if present. This entity is responsible for obtaining and maintaining an encroachment permit under these rules and a submerged lands lease under IDAPA 20.03.17, "Rules Governing Leases on State-Owned Submerged lands and Formerly Submerged Lands." ()

i. Existing commercial marinas that desire to change their operations and convert some of their moorage to private use must keep at least fifty percent (50%) of their moorage available for use by the general public. This change in operations must be approved by the department through a new encroachment permit prior to implementation of the change. The permit application shall describe, in text and in drawings, which moorage will be public and which moorage will be private. ()

04. Covered Slip. ()

a. Covered slips, regardless of when constructed, may not have a temporary or permanent residential area. ()

b. Slip covers should have colors that blend with the natural surroundings and are approved by the department. ()

c. Covered slips with permanent roofs and up to three (3) walls may be maintained or replaced at their current size if they were previously permitted or if they were constructed prior to January 1, 1975. These structures may not be expanded nor converted to boat garages. ()

d. Fabric covered slips must be constructed as canopies without sides unless the following standards are followed: ()

i. At least two (2) feet of open space is left between the bottom of the cover and the dock or pier surface; and ()

ii. Fabric for canopy and sides will transmit at least seventy-five percent (75%) of the natural light. ()

05. Boat Garage. ()

a. Boat garages are considered nonnavigational encroachments. ()

b. Applications for permits to construct new boat garages, or to expand the total square footage of the existing footprint, will not be accepted unless the application is to support local emergency services. ()

- d. Relocation of an existing boat garage will require a permit. ()

046. Breakwaters. Breakwaters built upon the lake for use in aid of navigation will not be authorized below the level of normal low water without an extraordinary showing of need, provided, however that this shall not apply to floating breakwaters secured by piling and used to protect private property from recurring wind, wave, or ice damage, or used to control traffic in busy areas of lakes. The breakwater shall be designed to counter wave actions of known wave heights and wave lengths. (7-1-98)()

07. Seawalls. Seawalls should be placed at or above the ordinary high water mark, or the artificial high water mark, if applicable. Seawalls are not an aid to navigation, and placement waterward of the ordinary or artificial high water mark will generally not be allowed. ()

- 08. Riprap.** ()

a. Riprap used to stabilize shorelines will consist of rock that is appropriately sized to resist movement from anticipated wave heights or tractive forces of the water flow. The rock shall be sound, dense, durable, and angular rock resistant to weathering and free of fines. The riprap shall overlie a distinct filter layer which consists of sand, gravel, or nonwoven geotextile fabric. The riprap and filter layer shall be keyed into the bed below the ordinary or artificial high water mark, as applicable. If the applicant wishes to install riprap with different standards, they must submit a design that is signed and stamped for construction purposes by a professional engineer registered in the state of Idaho. ()

b. Riprap used to protect the base of a seawall or other vertical walls may not need to be keyed into the bed and may not require a filter layer, at the department's discretion. ()

11. Excavated or Dredged Channel. ()

a. Excavating, dredging, or redredging channels shall require an encroachment permit and shall be processed in accordance with Section 030 of these rules. ()

b. An excavated or dredged channel or basin to provide access to navigable waters must have a clear environmental, economic, or social benefit to the people of the state, and shall not result in any appreciable environmental degradation. A channel or basin shall not be approved if the cumulative effects of these features in the same navigable lake would be adverse to fisheries or water quality. ()

c. Whenever practical, such channels or basins shall be located to serve more than one (1) littoral owner; provided, however, that no basin or channel will be approved that will provide access for watercraft to nonlittoral owners. ()

12. ATONs. Aids to Navigation will conform to the requirements established by the United States Aid to Navigation system. ()

b. Boat Lifts and Jet Ski Lifts. ()

i. Single-family docks are allowed a single boat lift and two (2) jet ski lifts, or two (2) boat lifts, without adding their footprint to the dock square footage. Additional lifts will require that fifty percent (50%) of the footprint of the largest lifts be included in the allowable square footage of the dock or pier as per Subsection 015.01. ()

ii. Two-family docks are allowed two (2) boat lifts and four (4) jet ski lifts, or four (4) boat lifts, without adding their footprint to the dock square footage. Additional lifts will require that fifty percent (50%) of the footprint of the largest lifts be included in the allowable square footage of the dock or pier as per Subsection 015.01. ()

iii. Community docks are allowed one (1) boat lift or two (2) jet ski lifts per moorage. Lifts placed outside of a slip shall be oriented with the long axis parallel to the dock structure. Additional lifts will require that fifty percent (50%) of their footprint be included in the allowable square footage of the dock or pier as per Subsection 015.02. ()

c. Angle from Shoreline. ()

i. Where feasible, all docks, piers, or similar structures shall be constructed so as to protrude as nearly as possible at right angles to the general shoreline, lessening the potential for infringement on adjacent littoral rights. ()

ii. Where it is not feasible to place docks at right angles to the general shoreline, the department shall work with the applicant to review and approve the applicant's proposed configuration and location of the dock and the dock's angle from shore. ()

d. Length of Community Docks and Commercial Navigational Encroachments.
Docks, piers, or other works may extend to a length that will provide access to a water depth that will afford sufficient draft for water craft customarily in use on the particular body of water, except that no structure may extend beyond the normal accepted line of navigability established through use unless additional length is authorized by permit or order of the director. If a normally accepted line of navigability has not been established through use, the director may from time to time as he deems necessary, designate a line of navigability for the purpose of effective administration of these rules. ()

e. Presumed Adverse Effect. It will be presumed, subject to rebuttal, that single-family and two-family navigational encroachments will have an adverse effect upon adjacent littoral rights if located closer than ten (10) feet from adjacent littoral right lines, and that commercial navigational encroachments, community docks or nonnavigational encroachments will have a like adverse effect upon adjacent littoral rights if located closer than twenty-five (25) feet to adjacent littoral right lines. Written consent of the adjacent littoral owner or owners will automatically rebut the presumption. All boat lifts and other structures attached to the encroachments shall be subject to the above presumptions of adverse affects. ()

f. Weather Conditions. Encroachments and their building materials shall be designed and installed to withstand normally anticipated weather conditions in the area. Docks, piers, and similar structures shall be adequately secured to pilings or anchors to prevent displacement due to

g. Markers. If the department determines that an encroachment is not of sufficient size to be readily seen or which poses a hazard to navigation, the permit shall specify that aids to navigation be used to clearly identify the potential hazard. ()

h. Overhead Clearance. ()

i. Overhead clearance between the natural or ordinary high water mark or the artificial high water mark, if there be one, and the structure or wires must be sufficient to pass the largest vessel which may reasonably be anticipated to use the subject waters in the vicinity of the encroachment. In no case will the clearance be required to exceed thirty (30) feet unless the department determines after public hearing that it is in the overall public interest that the clearance be in excess of thirty (30) feet. Irrespective of height above the water, approval of structures or wires presenting a hazard for boating or other water related activities may be conditioned upon adequate safety marking to show clearance and otherwise to warn the public of the hazard. The department shall specify in the permit the amount of overhead clearance and markings required. ()

ii. When the permit provides for overhead clearance or safety markings under Paragraph 015.13.h, the department shall consider the applicable requirements of the United States Coast Guard, the Idaho Transportation Department, the Idaho Public Utilities Commission and any other applicable federal, state, or local regulations. ()

i. Beaded Foam Flotation. Beaded foam flotation shall be completely encased in a manner that will maintain the structural integrity of the foam. The encasement shall be resistant to the entry of rodents. ()

The placing of dredged or fill material, refuse or waste matter intended as or becoming fill material, on or in the beds or waters of any navigable lake in the state of Idaho shall be considered an encroachment and written approval by the ~~director~~ department is required. 05. Dock Reconfiguration. ()

a. Rearrangement of single-family and two-family docks will require a new application for an encroachment permit. ()

b. Rearrangement of community docks *and commercial navigational encroachments* may not require a new application for an encroachment permit if the changes are only internal. i. Overall footprint does not change in dimension or orientation; ()

ii. No increase in square footage, as per Paragraph 015.13.a., occurs; ()

iii. The entrances and exits of the facility do not change. ()

A lease or easement may be required for uses including, but not limited to, commercial uses. Construction of an encroachment authorized by permit without first obtaining the required lease or easement shall constitute a trespass upon state-owned public trust lands. This rule is intended to grant the state recompense for the use of the state-owned bed of a navigable lake where reasonable and it is not intended that the ~~director~~ department withhold or refuse to grant such lease or easement if in all other respects the proposed encroachment would be permitted. ~~**03. Water Access.** Docks, piers or other works may extend to a length that will provide access to a water depth that will afford sufficient draft for water craft customarily in use on the particular body of water during the normal low water period, except that no structure may extend beyond the normal accepted line of navigability established through use unless additional length is authorized by permit or order of the director. If a normally accepted line of navigability has not been established through use, the director may from time to time as he deems necessary, after public hearing, designate a line of navigability for the purpose of effective administration of these rules.~~ (9-13-90)

20.03.17 - RULES GOVERNING LEASES ON STATE-OWNED SUBMERGED LANDS AND FORMERLY SUBMERGED LANDS

DOCKET NO. 20-0317-0701 (FEE RULE)

NOTICE OF RULEMAKING - ADOPTION OF PENDING FEE RULE

EFFECTIVE DATE: This rule has been adopted by the agency and is now pending review by the 2008 Idaho State Legislature for final approval. Pursuant to Section 67-5224(5)(c), Idaho Code, this pending rule will not become final and effective until it has been approved, amended, or modified by concurrent resolution of the legislature because of the fee being imposed or increased through this rulemaking. The rule becomes final and effective upon adoption of the concurrent resolution or upon the date specified in the concurrent resolution.

AUTHORITY: In compliance with Idaho Code Section 67-5224 and IDAPA 20.01.01, Rules of Practice and Procedure Before the State Board of Land Commissioners ("Board"), Sections 830 through 835, notice is hereby given that this agency has adopted a pending rule. This action is authorized pursuant to Section 58-104(6), Idaho Code.

DESCRIPTIVE SUMMARY: The following is a concise explanatory statement of the reasons for adopting the pending rule and a statement of any change between the text of the proposed rule and the text of the pending rule with an explanation of the reasons for the change:

The new rules were developed in conjunction with changes to IDAPA 20.03.04, Rules Governing the Regulation of Beds, Waters, and Airspace Over Navigable Lakes in the State of Idaho and will ensure continuity between the two sets of rules. Definitions were changed and expanded. The methods for determining rental rates were clarified. Yearly reporting requirements are added to assist the department's administration of the program and ability to keep rental rates current. Enforcement remedies are expanded to provide alternatives to lease cancellation. The rules also allow some amount of private moorage at commercial marinas.

Some changes were made to the pending rules after the close of comments on October 24, 2007. These changes are largely in response to comments received from the public. The definition of "commercial navigational encroachment" was modified to make it more general. A new definition of "commercial marina" was added. A definition of "two-family dock" was added for clarity. The lease term was modified in response to concerns that the wrong reference was used. References to public moorage, private moorage, and float homes were modified to clarify the meaning. Pursuant to Section 67-5228, Idaho Code, typographical, transcriptional, and/or clerical corrections have also been made to the rule and are being published with this Notice of Rulemaking as part of the pending rule.

The text of the pending rule has been amended in accordance with Section 67-5227, Idaho Code. Only those sections that have changes that differ from the proposed text are printed in this bulletin. The original text of the proposed rule was published in Book 2 of the October 3rd, 2007 Idaho Administrative Bulletin, Vol. 07-10, pages 61 through 69.

Leases/State-Owned Submerged/Formerly Submerged Lands

Docket No. 20-0317-0701

PENDING FEE RULE

not later than five (5) days prior to the hearing, to the agency address below.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule and a nontechnical explanation of the substance and purpose of the proposed rulemaking:

The Idaho Department of Lands (IDL) is initiating this rulemaking to provide continuity with IDAPA 20.03.04 and to address significant issues associated with development pressure, escalating resource demands, increased property values, and the economics of marina operation. The issues to be addressed by this rulemaking include changing definitions to match those of IDAPA 20.03.04, "Rules for the Regulation of Beds, Waters, and Airspace Over Navigable Lakes in the State of Idaho," and allowing commercial marinas to have some private moorage without permanently encumbering public trust lands and with sufficient protections for the parties involved. The rules will also specify what types of rental rates should be used. Yearly reporting requirements are added to assist the department in determining current market rental rates and to ensure our lessees are maintaining proper insurance coverage. These rules will also provide enforcement remedies in addition to lease cancellation. This rulemaking will be conducted in conjunction with the IDAPA 20.03.04 rulemaking.

FEE SUMMARY: The following is a specific description of the fees:

Lease application and renewal fees are \$150; lease assignment fees are \$150. Lease application and assignment fees will be required in addition to similar fees collected under IDAPA 20.03.04. Rental rates will be set by the board. Lease violations may be remedied with payment of a civil penalty to be collected as additional rent.

FISCAL IMPACT: This is a general fund program. The department anticipates a positive fiscal impact of approximately \$4,000 on the state general fund due to increased application and assignment fees.

NEGOTIATED RULEMAKING: Pursuant to IDAPA 04.11.01.811, negotiated rulemaking was conducted. The Notice of Negotiated Rulemaking was published in the June 6, 2007 Idaho Administrative Bulletin, Vol. 07-6 page 77. Negotiations were conducted over six (6) meetings in June and July, 2007.
